5/4/2026 19:15:08	Corporate Professional (Late-shift/Banker/ Night-shift)	Female	Daily	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing	3	15 to 30 minutes	Severe data degradation (Stuck on 2G/3G or Edge), Location tracking freezes or maps failing to render	Over 30 seconds / Impossible to execute under pressure
5/4/2026 21:48:36	Corporate Professional (Late-shift/Banker/ Night-shift)	Female	2–4 times a week	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Staying on an active, continuous phone call for the duration of the trip, Using built-in trip sharing inside ride-hailing applications (Uber/Bolt)	4	15 to 30 minutes	Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications, Location tracking freezes or maps failing to render	Over 30 seconds / Impossible to execute under pressure
5/4/2026 21:52:31	Corporate Professional (Late-shift/Banker/ Night-shift)	Female	2–4 times a week	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Staying on an active, continuous phone call for the duration of the trip	2	More than 60 minutes	Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications, Location tracking freezes or maps failing to render	Over 30 seconds / Impossible to execute under pressure
5/4/2026 22:12:53	University Student	Female	2–4 times a week	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Initiating Google Maps Share-Trip sharing, Staying on an active, continuous phone call for the duration of the trip, Using built-in trip sharing inside ride-hailing applications (Uber/Bolt)	2	15 to 30 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Location tracking freezes or maps failing to render	15 to 30 seconds
5/5/2026 15:26:24	University Student	Female	Daily	Sending manual SMS/WhatsApp text updates at milestones	3	30 to 60 minutes	Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications, Location tracking freezes or maps failing to render	15 to 30 seconds
5/5/2026 17:27:42	Corporate Professional (Late-shift/Banker/ Night-shift)	Female	2–4 times a week	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Staying on an active, continuous phone call for the duration of the trip	5	30 to 60 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Location tracking freezes or maps failing to render	Over 30 seconds / Impossible to execute under pressure
5/6/2026 14:14:24	University Student	Female	Daily	I do not use any tool; I only check in if explicitly asked by them	2	15 to 30 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Location tracking freezes or maps failing to render	15 to 30 seconds
5/6/2026 15:26:31	Corporate Professional (Late-shift/Banker/ Night-shift)	Female	2–4 times a week	Initiating continuous WhatsApp Live Location sharing, Staying on an active, continuous phone call for the duration of the trip, Using built-in trip sharing inside ride-hailing applications (Uber/Bolt)	4	15 to 30 minutes	Total network signal drop / Zero bars, Rapid battery depletion due to background applications	5 to 15 seconds
5/6/2026 16:28:15	National Youth Service Corps (NYSC) Member	Female	2–4 times a week	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Staying on an active, continuous phone call for the duration of the trip	1	30 to 60 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications, Location tracking freezes or maps failing to render	15 to 30 seconds
5/6/2026 19:08:55	University Student	Male	2–4 times a week	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Using built-in trip sharing inside ride-hailing applications (Uber/Bolt)	3	15 to 30 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Location tracking freezes or maps failing to render	15 to 30 seconds
5/6/2026 19:53:40	University Student	Female	2–4 times a week	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Staying on an active, continuous phone call for the duration of the trip	3	30 to 60 minutes	Total network signal drop / Zero bars, Rapid battery depletion due to background applications, Location tracking freezes or maps failing to render	5 to 15 seconds
5/6/2026 20:41:02	Corporate Professional (Late-shift/Banker/ Night-shift)	Male	Rarely / Never	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing	1	More than 60 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Location tracking freezes or maps failing to render	Over 30 seconds / Impossible to execute under pressure
5/7/2026 18:23:40	Other	Male	2–4 times a week	I do not use any tool; I only check in if explicitly asked by them	2	Under 15 minutes	Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications, Location tracking freezes or maps failing to render	5 to 15 seconds
5/7/2026 19:59:19	University Student	Female	2–4 times a week	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Initiating Google Maps Share-Trip sharing, Staying on an active, continuous phone call for the duration of the trip, Using built-in trip sharing inside ride-hailing applications (Uber/Bolt)	3	15 to 30 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications, Location tracking freezes or maps failing to render	15 to 30 seconds
5/7/2026 20:10:19	University Student	Male	2–4 times a week	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Using built-in trip sharing inside ride-hailing applications (Uber/Bolt)	1	More than 60 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications, Location tracking freezes or maps failing to render	Over 30 seconds / Impossible to execute under pressure
5/7/2026 20:36:50	National Youth Service Corps (NYSC) Member	Female	Rarely / Never	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Using built-in trip sharing inside ride-hailing applications (Uber/Bolt)	3	30 to 60 minutes	Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications, Location tracking freezes or maps failing to render	5 to 15 seconds
5/8/2026 20:04:26	University Student	Female	2–4 times a week	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Staying on an active, continuous phone call for the duration of the trip	3	30 to 60 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications	Under 5 seconds
5/8/2026 22:34:01	National Youth Service Corps (NYSC) Member	Female	Rarely / Never	Sending manual SMS/WhatsApp text updates at milestones, Staying on an active, continuous phone call for the duration of the trip	4	30 to 60 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications, Location tracking freezes or maps failing to render	5 to 15 seconds
5/9/2026 18:22:51	University Student	Female	2–4 times a week	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Initiating Google Maps Share-Trip sharing, Using built-in trip sharing inside ride-hailing applications (Uber/Bolt)	3	Under 15 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications	15 to 30 seconds
5/9/2026 19:47:45	Corporate Professional (Late-shift/Banker/ Night-shift)	Female	Daily	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Staying on an active, continuous phone call for the duration of the trip	4	15 to 30 minutes	Severe data degradation (Stuck on 2G/3G or Edge), Location tracking freezes or maps failing to render	5 to 15 seconds
5/11/2026 13:49:19	Other	Male	2–4 times a week	I do not use any tool; I only check in if explicitly asked by them	5	Under 15 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications	Under 5 seconds
5/11/2026 18:17:27	University Student	Female	Daily	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Initiating Google Maps Share-Trip sharing, Using built-in trip sharing inside ride-hailing applications (Uber/Bolt)	2	15 to 30 minutes	Total network signal drop / Zero bars, Location tracking freezes or maps failing to render	Over 30 seconds / Impossible to execute under pressure
5/12/2026 16:15:53	University Student	Female	Daily	Sending manual SMS/WhatsApp text updates at milestones, Initiating continuous WhatsApp Live Location sharing, Staying on an active, continuous phone call for the duration of the trip	4	30 to 60 minutes	Total network signal drop / Zero bars, Severe data degradation (Stuck on 2G/3G or Edge), Rapid battery depletion due to background applications, Location tracking freezes or maps failing to render	5 to 15 seconds

LifeLine Survey — Aggregate Analysis

n = 52 respondents · Generated from "Form responses 1" sheet via COUNTIF formulas

Note: Values update automatically when the response sheet changes.

Q1 — Primary daily occupation

Response	Count	% of n	
University Student	31	60%	
National Youth Service Corps (NYSC) Member	8	15%	
Corporate Professional (Late-shift/Banker/Night-shift)	10	19%	
Other	3	6%	
Total	52	100%	

Q2 — Gender

Response	Count	% of n	
Female	34	65%	
Male	17	33%	
Prefer not to say	1	2%	
Total	52	100%	

Q3 — Night-travel frequency (alone, 6:30–11 PM)

Response	Count	% of n	
Daily	13	25%	
2–4 times a week	26	50%	
Rarely / Never	13	25%	
Total	52	100%	

Q4 — Safety methods currently used (multi-select)

Option (multi-select)	Count	% of n	Note
Sending manual SMS/WhatsApp text updates at milestones	40	77%	<i>Respondents may select multiple options</i>

Initiating continuous WhatsApp Live Location sharing	35	67%	<i>Respondents may select multiple options</i>
Initiating Google Maps Share-Trip sharing	9	17%	<i>Respondents may select multiple options</i>
Staying on an active, continuous phone call for the duration of the trip	28	54%	<i>Respondents may select multiple options</i>
Using built-in trip sharing inside ride-hailing applications (Uber/Bolt)	18	35%	<i>Respondents may select multiple options</i>
I do not use any tool; I only check in if explicitly asked by them	7	13%	<i>Respondents may select multiple options</i>

Q5 — Forgetfulness of “I’ve arrived” check-in (1–5 scale)

Response	Count	% of n	
1	7	13%	
2	13	25%	
3	20	38%	
4	9	17%	
5	3	6%	
Total	52	100%	

Q6 — Average evening transit duration

Response	Count	% of n	
Under 15 minutes	5	10%	
15 to 30 minutes	20	38%	
30 to 60 minutes	20	38%	
More than 60 minutes	7	13%	
Total	52	100%	

Q7 — Mobile network constraints experienced (multi-select)

Option (multi-select)	Count	% of n	Note
Total network signal drop / Zero bars	37	71%	<i>Respondents may select multiple options</i>
Severe data degradation (Stuck on 2G/3G or Edge)	41	79%	<i>Respondents may select multiple options</i>
Rapid battery depletion due to background applications	35	67%	<i>Respondents may select multiple options</i>

Location tracking freezes or maps failing to render	38	73%	<i>Respondents may select multiple options</i>
Q8 — Time to share GPS in distress			
Response	Count	% of n	
Under 5 seconds	3	6%	
5 to 15 seconds	13	25%	
15 to 30 seconds	20	38%	
Over 30 seconds / Impossible to execute under pressure	16	31%	
Total	52	100%	
HEADLINE INSIGHTS (live, computed from the response sheet)			
% who forget the safe-arrival check-in at least occasionally (Q5)	62%		
% experiencing severe 2G/3G degradation (Q7)	79%		
% needing 15+ seconds (or impossible) to share GPS in distress	69%		
% traveling alone at night daily or 2–4×/week (Q3)	75%
